

# Call for Proposals

## **Counseling Connections 2022: Harvest Revival Reconnecting and Reimagining**

**Virtual Sessions - October 10-13, 2022**

**In Person Sessions - October 14, 2022 (Norwich Holiday Inn)**

Declaring this year's conference a revival stems from the very definition of the word itself - a restoration of consciousness, vigor, and strength following a period of obscurity and quiescence. As counselors, we understand and value the importance of connection and recognize the impact that so many recent events have had on all of us, personally and professionally. **After a long absence of in-person connection, let's finally come together to reenergize, reinvigorate, and restore one another.**

As we enter a time of year rooted in transition, beauty, and bounty, we invite you to join us for those same reasons. To honor the protean nature of the world while discovering the positivity inherent in such change. To honor the magnificence of the human spirit while identifying ways of bolstering our strength, enthusiasm, and awareness. And to celebrate the abundance of work still accomplished in the face of adversity, lending credence to the fact that humans are adaptable and resilient. We truly look forward to rejoining with you!

**Deadline for submission - Wednesday, August 3rd**
