The Evolution of Counseling Practice:

Integrating Resilience Research & the Wellness Promoting Models

February 5-7, 2027

BOSTON, MASSACHUSETTS

Broaden and deepen your Knowledge of the Resilience research and its implications for improving counseling practice.
Expand your therapeutic toolkit by integrating complementary counseling methods within an Adlerian (I.P.) framework.
Develop more responsive, creative, and effective counseling experiences for clients by infusing innovative, wellness promoting strategies such as EMDR, IFS, EMR within an integrative theoretical framework supported by empirical evidence.

Learn via LIVE DEMONSTRATIONS & EXPERIENTIAL PRACTICE!

Widen your counseling/therapeutic lens by addressing '*problem maintaining'* family, school, & community practices including common mistaken methods of the mental health/counseling field itself!

Also Learn About:

- **The Parent-Child-School Triad** perspective in the assessment and development of collaborative interventions.
- **Project LIFT**, an innovative and effective program for **adolescents experiencing substance use and delinquency** integrating mental health and work force competencies within a resilience promotion paradigm.

Recommended For ALL Counselors & Mental Health Professionals
